Profile

Motivated developer with hands-on experience in HTML, CSS, JavaScript, Python, and Django. Skilled in building responsive web apps, solving problems, and adapting to new technologies. Focused on creating efficient, user-friendly digital solutions.

Project

- **Full stack development – Moi (event)**

Tools Used: HTML, CSS, JavaScript.

Description: Built a Django web app for event and Moi (gift) tracking with operations, search/filter/sort, multilingual (Tamil/English) support, data export (PDF/Excel), and offline-first JSON backup. Designed a user-friendly and secure interface.

- **Academic project - prevention of early schooling using data analytics**

Tools Used: HTML, CSS, JavaScript.

Description: Contributed to the development of a webbased Early Alert system for monitoring maternal and child health. Integrated real-time data entry, alerts, and reporting features to support proactive care by healthcare providers.
